Gary Munneke : Careers in Law (Careers inhellip;Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Careers in Law (Careers inhellip;Series):

56 of 58 people found the following review helpful. Careers in LawBy A CustomerThis book is very handy for pre-law or entering-law students who are not quite sure where they are headed. As a senior at the University of Michigan, I know I want to go into law, but have no idea what to do with it. This guide helped give me some realistic options of what to do with a law degree if I find 80-hour workweeks too unbearable.Anybody interested in law should read this because so many pre-law students (at least those without family members or friends as lawyers) have little idea what happens in a corporate law situation, in a law firm, or in a public interest organization. This book helps distinguish the pros and cons of each option, giving you a breakdown of where you need to go and what you need to do to get where you want to be.I am glad I read this book because it has helped me get a better sense of what exactly there is to do out in the real world that makes use of a law degree.5 of 5 people found the following review helpful. Careers in LawBy April H.Another wonderful resource for students that may be thinking that being a lawyer means doing nothing but arguing all the time. This book helps them see the wide variety of law type jobs.2 of 3 people found the following

review helpful. The WorstBy PreLawI'm sorry but this is horrible. Every time the book seemed like it was going to tell me something interesting...the next line is "however, that is beyond the scope of what is covered in this book." Then what really killed me is in the family law (divorce) section when the author starts talking about how it is illegal for lawyers to have sexual relations with clients which can be real danger when feelings get out of hand. Are you kidding?I was looking for something that delves into the day to day work of lawyers in various practice areas (which seems to be a bit of a secret for whatever reason). This is more like an unorganized, very general review of a few practice areas. I guess you get what you paid for. Should've known when the purchase price was .01.

VGM PROFESSIONAL CAREERS SERIES PRESENTS EXPERT GUIDANCE ON EXPLORING AND CHOOSING THE PERFECT JOB Whether they are college students planning a future, or professionals looking to change fields, this series offers: bull; Specific information on each profession bull; Career choices within each field bull; Details on responsibilities, education, and training required bull; Information on the demands of different careers bull; And much more
