**From Human Kinetics : Careers in Sport, Fitness, and Exercise** before purchasing it in order to gage whether or not it would be worth my time, and all praised Careers in Sport, Fitness, and Exercise:

0 of 0 people found the following review helpful. it is a great starting point for explorationBy H. LaRIt's alright. I wish it went into depth about some of the careers and discussed the other credentials needed for some of them in more detail.But overall, it is a great starting point for exploration. My best advice would be to talk to as many people in the diverse field as possible, and not just professors, as they may very well be out of touch with latest developments outside of teaching.0 of 0 people found the following review helpful. Great career resource!By Not PublicExcellent resource for students and career counselors alike. I am a high school counselor and am delighted to add this to my library. Very clear, well organized information authored by a professional association, so they definitely know the

ropes for careers in these fields. 1 of 1 people found the following review helpful. Decent starter book By KCI had to get this book for a class I was taking. if you're considering this as a guide for career options, you'll probably be pleased. It covers the basics thoroughly without getting too in-depth. Offers info as to what institutions and certifications are involved in different careers, and also gives a realistic view of the lifestyle one is choosing once they enter each field.

Careers in Sport, Fitness, and Exercise is your guide to landing your dream job in one of today's most exciting, popular, and fastest-growing industries! "I have served as a professor, department chair, and academic dean, and I have observed hundreds of students who enroll in programs with little concept of career options and how to achieve employment goals. Students need guidance in understanding the options. Careers in Sport, Fitness, and Exercise provides that guidance." Brian J. Sharkey, PhD -- Professor Emeritus, University of Montana Past President of American College of Sports Medicine  
"Careers in Sport, Fitness, and Exercise offers clear information, helpful examples, and plenty of food for thought for those aspiring to find a career in this growing field." Nancy Clark, MS, RD, CSSD -- Director of sports nutrition services at Healthworks, Chestnut Hill, Massachusetts Author of Nancy Clark's Sports Nutrition Guidebook, Fourth Edition About the Author The American Kinesiology Association (AKA), an association of over 100 college and university departments, was formed in February 2007 by the Human Kinetics Foundation with the support of the National Academy of Kinesiology. The AKA promotes kinesiology as a unified field of study and serves as an advocate at academic, governmental, and professional levels, both nationally and internationally. The AKA serves the needs of kinesiology departments at colleges and universities, assists scholarly societies associated with kinesiology, and encourages cross-disciplinary study in kinesiology. Shirl Hoffman is the AKA's former executive director and now editor of the e-magazine Kinesiology Today. He also is editor of the textbook Introduction to Kinesiology, Third Edition (2009, Human Kinetics), and is author of Good Game: Christianity and the Culture of Sports (2010, Baylor University Press). He is professor emeritus of kinesiology at the University of North Carolina at Greensboro, where he served as department head for 10 years.
