C. Ray Johnson, Johnson : CEO Logic before purchasing it in order to gage whether or not it would be worth my time, and all praised CEO Logic:

0 of 0 people found the following review helpful. Excellent book for gaining an excellent perspective on business success. By Dan I love this book. It's pretty basic but clear. Much of what divides successful from unsuccessful pursuits comes down to right thinking. Whether you plan to become a CEO or already one or whether you just want to improve your perspective as a manager or individual contributor, this book is an excellent read and time well invested. 0 of 0

Could be more condensed.0 of 0 people found the following review helpful. A business executives bible.By Reginald Spivey
CEO logic was everything I expected. A refresher course for CEOs and ex-ceos. It lives up to its title of how to think and act like a CEO. A good read for business practioners.

This book starts with the foundations of business success: the development of a business philosophy that works for you, and the strategic application of that philosophy in all areas of your endeavor.
