Roger Kinsky : Charting Made Simple: A Beginner's Guide to Technical Analysis before purchasing it in order to gage whether or not it would be worth my time, and all praised Charting Made Simple: A Beginner's Guide to Technical Analysis:

A straightforward guide that answers investors questions and helps them develop their own charting system The fifth book in the Wrightbooks "Made Simple" series, this book gives investors the answers they need to understand and use charting without the expense of a proprietary program. It explains such commonly used charting tools as the moving

average indicator and Bollinger bands and shows readers how to combine tools and techniques into a coherent charting system that works for them.

From the Back Cover Charting Made Simple is the essential guide for anyone who wants to use charting to make money on the stock market, without all the fuss. Australia's foremost sharemarket educator will show you the most straightforward methods for profiting from the markets using share price charts. Including the information you need to know (and nothing more), this book provides simple strategies you can use right away ? even if you have never looked at a sharemarket chart before. Inside you'll find information on: the basics of charting and technical analysis accessing and interpreting price and volume charts identifying and capitalising on price trends and patterns the different charting tools and indicators available to help you make good trading decisions recognising the danger signals and acting on them developing a system to suit your own circumstances and trading style. If you're ready to use charting to trade profitably without all the stress, this is the book for you. About the Author Roger Kinsky is a master's graduate of Sydney University and has more than 30 years' experience trading shares. He trades online and uses technical analysis to self-manage his extensive and profitable share portfolio. He is the author of 10 other books, including the best-selling Teach Yourself About Shares, Shares Made Simple and Online Investing on the Australian Sharemarket, and is a tutor of share investing, online investing and business technology.
