Eswar Prasad : China's Growth and Integration into the World Economy: Prospects and Challenges (Occasional Paper (Intl Monetary Fund)) before purchasing it in order to gage whether or not it would be worth my time, and all praised China's Growth and Integration into the World Economy: Prospects and Challenges (Occasional Paper (Intl Monetary Fund)):

China's transformation into a dynamic private-sector-led economy and its integration into the world economy have been among the most dramatic global economic developments of recent decades. This paper provides an overview of some of the key aspects of recent developments in China's macroeconomy and economic structure. It also surveys the main policy challenges that will need to be addressed for China to maintain sustained high growth

and continued global integration.
