China's Rural Economy after WTO discusses and analyses China's rural sector problems in detail, including the areas of poverty, income inequality, the gender gap, barriers of rural-urban migration, discrimination against rural workers, poor rural governance and the impact of WTO membership. It also tackles the important subjects of inadequate infrastructure and discriminatory credit services. Strategies to modernize China's rural economy are proposed and the relevant experiences and lessons of other countries are analyzed.

About the Author Dr Aimin Chen is Vice President at Sichuan University, People's Republic of China. Shunfeng Song is Professor in the Department of Economics at the University of Nevada, USA.
