**From Routledge : Chinese Business in Southeast Asia** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Chinese Business in Southeast Asia:

Presents empirical findings from different South-East Asian countries to demonstrate that Chinese businessmen employ a variety of strategies in their networking, entrepreneurship and organisational and firm development; and concludes that much more research is needed in order to provide a full understanding of Chinese business success.

'[This book] should be included in the essential reading list for those interested in Chinese business in Southeast Asia.' - ASEAN Economic Bulletin
