A. Mironko : Determinants of FDI Flows within Emerging Economies: A Case Study of Poland (Studies in Economic Transition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Determinants of FDI Flows within Emerging Economies: A Case Study of Poland (Studies in Economic Transition):

This study provides a detailed examination of foreign direct investment (FDI) in Poland and explores the impact this has on foreign investment policy. It analyzes and identifies location patterns of FDI and strives to determine the supporting motives behind location choices of foreign companies.

About the Author Arkadiusz Mironko serves as Executive Director for Graduate Programs at the Anderson Graduate School of Management at the University of California, Riverside, USA. Previously, he was the academic director for MBA programs at RSM Erasmus University Rotterdam, Netherlands. He teaches courses in global competition and business strategy. His current research interests are in the areas of foreign direct investment strategy, global business strategy, global competition, developing economies, and knowledge creation and transfer in multinational corporations.
