This one touches a variety of topics that are relevant to what I do (Facilitator, Coaching, and Mentoring). You can focus on any section of the book based on what on what you want to be more influential at.0 of 1 people found the following review helpful. Great little book, helped me hit free shipping thresholdBy J. HopeTo be honest, I only chose this book to help me hit the minimum free shipping threshold. It seemed slightly interesting. It ended up being a very small book, with lots of pictures and graphics, so not a lot of content. For the price this wasn't a surprise. Most of the content was common sense, and I can't honestly say I learned anything new from it, but it might be useful for managers who are

just starting out on their career.

DK's best-selling Essential Managers series are ideal for managers at every level. These compact references demonstrate the techniques and skills that are useful in any work environment, making this series the most accessible single-subject business guides on the market.
