someone new in the business, it's a bible, but for anyone who's been at this long enough to see the possibility, it's a freaking treasure map leading you and your teams precisely toward the rewards and riches you want in life. You have to want it (your why) and you have to read it (maybe a few times) and you have to do what she says (like yesterday). As a personal development junkie, I've read hundreds of books (and few held my attention cover-to-cover) inside and outside this industry, but none tells it like it is and gives you the skills, the drills, the language and the BS-busting bravado that this new doctrine does. Hours after you put this down, you'll still be laughing at phrases like "weak sauce" and "funnel constipation" and there won't be enough sticky notes in your stack to mark all the brilliant advice, and perfect phrasing that will put your business in overdrive. I predict a new generation of network marketing millionaires will be born from this book, because they do what she outlines, they will finally be over themselves and on their journey to living their dreams. Thank you, Romi Neustadt, for pouring into the people you love and the people that will soon be in love with you for you changing their lives one "real and raw" chapter at a time in a book that should be in everyone's lap and the top of every team's reading list. #goyds1 of 1 people found the following review helpful.
