thereBy JenniferThe author does a good job of understanding the plight of the under and unemployed. A lot of stuff was in there about networking, which I feel is only as effective as the collective group you associate with. If you feel like your immediate circle is of the unsupportive or fair-weather friend variety, you may be more like me and thinking "Networking-schmetworking!" Nevertheless, I feel that this book deserves 4 stars for the discussion of LinkedIn alone- as I have found, it's a great social platform and you don't have to be the typical 9-5er to benefit from it. People you interact with have some direction they want to go in and are not there to be frivolous. I'll have to admit that I could not finish this; I did make an attempt to follow the exercises; albeit half-heartedly; I just came away with the impression that I'm not in the targeted demographic of job seekers-it's like I couldn't "find" myself in all of the dialogue. Not surprising as the cover shows a man ascending the classic "corporate ladder", and so if you are more of an entrepreneur at heart, you may find that this book's advice doesn't "sync up" with your unique life aspirations. But if you're of that hard-as-nails prototype with a briefcase in hand ready to hit the ground running, you may find Myers' advice very motivating. Oh, and if anyone here is seeking a bargain, I am selling my copy; you may benefit more from it than I did. 0 of 0 people found the following review helpful. Strongly recommended. You can have a lot of knowledge and ...By Wolverine76This book made me have more confidence on me as a professional. Also made me gets the job I wanted. Strongly recommended. You can have a lot of knowledge and a lot of experience, but if you do not know how to make a recruiter pay attention to your resume, it won't make you win the job you want. Strongly recommended. 0 of 0 people found the following review helpful. Excellent resource book on career management and job hunting skills! By Douglas L. SchmidtFord Myer's Get the Job You Want is an excellent resource for any professional looking for a job, needs to network or needs advice to improve/enhance their careers. Ford provides excellent career enhancing tools, common sense approaches and strategies to professionals in the challenging work world we face today. I highly recommend any professional to read this book.
