As I have progressed in my career, I have discovered that "being in charge" is a myth. Even at the apex of an organization you are beholden to someone if not more "bosses". So regardless of your

place within your organization this book provides practical tips on improving your effectiveness. Of particular value and insight are the comparison of leadership and management, the concept of counterdependence, and the internal and external customer discussion. I have shared this information and it has been well received by colleagues, at management retreats and with university professors. At less than half the price of the typical soft cover management book you may consider purchasing two. One for you and one to share. 0 of 0 people found the following review helpful. Learning to be in charge By C Killam I read "Getting Things Done When You Are Not In Charge [Kindle Edition]" by Geoffrey M Bellman as an assignment for a Quality Management course. I found the book an easy read with many good examples of how to lead whether one is in charge or not. Bellman also had many references to the golden rule that I find is lacking in the business world today. As a future Quality Manager, I will look back on this book for ideas in the future. 0 of 0 people found the following review helpful. Perfect. 2nd copy and this one soft cover By margaret luttinger Perfect. 2nd copy and this one soft cover. Right on time and just as described. This is a very useful book for all of those who have to work from the middle.

You are not in charge and you want to make a difference: that is the dilemma. You may not know who is in charge in today's changing, temporary, and virtual organizations, but you know you are not! You are searching for ways to contribute through the work you do and gain some personal satisfaction in the process. This book can help you do just that. In this new edition of his classic book, Geoff Bellman shows readers how to make things happen in any organization regardless of their formal position. The new edition has been written for a wider audience, including people in both the for-profit and not-for-profit sectors, paid and volunteer workers, managers and individual contributors, contract and freelance workers. More than seventy percent of the material is brand new, including new examples, new chapters, new exercises, and much more.
