Dr. Shel Leanne : How to Interview Like a Top MBA: Job-Winning Strategies From Headhunters, Fortune 100 Recruiters, and Career Counselors: Job-Winning Strategies From Headhunters, ... and Career Counselors (Career (Exclude VGM))

before purchasing it in order to gauge whether or not it would be worth my time, and all praised *How to Interview Like a Top MBA: Job-Winning Strategies From Headhunters, Fortune 100 Recruiters, and Career Counselors: Job-Winning Strategies From Headhunters, ... and Career Counselors (Career (Exclude VGM))*:

0 of 0 people found the following review helpful. Good interview prep book By P. Kim Good guide for interview questions. It is a good way to prepare for interviews. The book teaches you to answer questions in a reasonable way. I highly recommend this book for those who are not really good with interviews. If you are skilled at answering well then this book is a quick refresher. 2 of 2 people found the following review helpful. Amazing book By Olga It is a great book - I recommend it to all my friends who are looking for a job. The book gives you parallel examples of what is a 'good' versus 'great' answer which helps you internalize your go-to-interview strategy by thinking about your strengths and showcasing them in a completely winning manner. I was struggling to find a summer internship in my first year of an MBA program, and in a moment of despair bought this book. Thanks to the tips written here I started getting passed on to 2nd rounds, boosted my confidence and eventually got my summer internship offers (3)! 10 of 11 people found the following review helpful. Great interview book; a must have! By Jes Ok first off I just so you can have a little background on me, I will say I have taken classes on this subject before being a college graduate. With that said, I must say this is the best book I have read on the subject and I have read several. The only other book I would recommend is "What color is your parachute (insert current year)" WCIYP? Is different, it is more of a book about seeking/doing what you like/are meant to do/be. It has some general interview tips (and good ones) but it is more of a job seekers guide. This book is focused on the job interview which is what I wanted. So you got the great resume and job interviews lined up. How can you ace the most important part of the process? PREPARE that is how. This book is excellent on preparing you for the typical questions you will get from standard interviews. I went on two interviews and got two job offers. I won't credit the book for 100% for the job offers, but I will say it helped me prepare for my interviews and understand the reasons behind the questions I was being asked. This information was helpful and I recommend this book to every job seeker with an interview lined up. It definitely helped me and I got some questions in the book during my interviews. Hope this helps.

Strategies for turning your next interview into an offer--as taught at today's leading business schools Every job interview is a one-shot opportunity to dramatically improve your career and lifestyle.
