I mean they 'looked' like and made me feel like I was 'getting it'. But I wasn't really sure. Once you invest the time to read and understand the concepts in this

book, why they're telling you to look at something a certain way and what the perspective is, it kind of jumps off the page at you. Truth be told, I've studied a lot before this, and maybe this was the book that it just clicked for me, but this was an easy to read nonsense book that's laid out perfectly to easily upstanding and start practicing trading in a way that you'll feel confident that you can do and will be successful. Kudos to all involved in writing this book. Thank you!!!!0 of 0 people found the following review helpful. I subscribe to IBD and the CANSLIM trading system and find these books compliment their home study courses. The only reason I am giving this 4stars is that because it comes of as an advertisement for the CANSLIM system and you have to subscribe to investors.com and some of their extra products to take full advantage of the system.0 of 0 people found the following review helpful.
