Jim Barrett : How to Pass Advanced Aptitude Tests: Assess Your Potential and Analyse Your Career Opti (Testing Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Pass Advanced Aptitude Tests: Assess Your Potential and Analyse Your Career Opti (Testing Series):

0 of 0 people found the following review helpful. NOT a 'How to pass' book!!By Murray BryantThis is basically an

advanced aptitude test. It's good and it gets you in the right mindset HOWEVER, it IS NOT a how to pass guide. It tells you the answers but not how you get to them and it gives you ZERO guidance on how to improve. It's a decent training tool just to see what they are all about and get your mind in gear but if you're looking to seriously improve and understand advanced aptitude tests this isn't the book for you! 0 of 0 people found the following review helpful. Brush up on your innate skills By T. Kepler Worthwhile exercises to discover, reinforce, and educate about one's aptitudes or lack thereof. Only new insight was my subpar performance on Numeracy though this does not test math skills per se.

The use of tests as part of job selection and assessment procedures has now become routine. Most candidates can expect to face a battery of tests, including those which identify a person's aptitude for a particular job. How to Pass Advanced Aptitude Tests is aimed at those applying for positions of increased responsibility, where the selection procedures can be even more rigorous. It will familiarise you with the types of test you may face so that through practice you will improve your scores. This second edition now includes detailed explanations with every answer, to ensure that you learn and gain the most out of the practice tests. Also featuring personality and career analysis and an occupational index and career agenda planner, How to Pass Advanced Aptitude Tests shows you which career path might be the right one for you, and assesses whether you are currently in the right job.
