The text is a valuable and crucial guide for anyone with this area of expertise. It is delivered in such a positive warm way, that I felt like I was having a conversation with the writer. It is comforting to read what someone else has gone through, and learn from their experiences. I especially loved the sections that provide "Real-Life" scenarios that were very relatable. There is a nice balance of text, templates, forms and personality to help make the reader feel empowered. The chapter on Taxes and Record Keeping is absolutely indispensable.
