By oxstang All AC's are different, but this gave a good overview of what to expect in various types of centers. Glad I read it. Definitely helped me to pass mine. 2 of 3 people found the following review helpful. Helpful with good insights. By ES Purchased this book to prepare for an assessment center experience in order to obtain a senior level executive position in a Fortune 500 company. The book provided insight and examples of what to expect. The examples will give you even more tips and suggestions to prepare and excel. The book was written for a U.K. audience and examples using currency, size, length, weight or distance were in metric or British pounds and pence. But, that won't take away from message. If you have time, the book recommends other books in the series for additional help in specific areas. If you have limited amount of time, it's the perfect overview of what to expect. 0 of 0 people found the following review helpful. Interesting and helpful book. By Gerard This book helps me to understand better what an assessment center is. Good general insights that can be applied in all AC

When applying for a new job or promotion many people face the rigours of an assessment centre. Many organisations, in both the public and private sectors, use these extended forms of assessment for selection purposes to guarantee they pick the candidate who will be the best fit for the company. However candidates often fail to do themselves justice as they are unaware of the different type of assessment tasks they may have to undertake. How to Succeed at an Assessment Centre provides ideal preparation for assessment events and gives expert advice on all the key issues such as how the assessments are conducted, how to behave in formal and informal situations as well as how to prepare for the different forms of assessment. With a plethora of practice questions, answers and explanations, How to Succeed at an Assessment Centre gives essential practical advice on the many different assessment processes, from group exercises to panel interviews and presentations.
