**Christopher Saint, Judy Saint : IC Mask Design (Professional Engineering)** before purchasing it in order to gage whether or not it would be worth my time, and all praised IC Mask Design (Professional Engineering):

Integrated Circuit Mask Design teaches integrated circuit (IC) processes, mask design techniques, and fundamental device concepts in everyday language. It develops ideas from the ground up, building complex concepts out of simple ones, constantly reinforcing what has been taught with examples, self-tests and sidebars covering the motivation behind the material covered.
