Armand De Mestral : Improving International Investment Agreements (Routledge Research in International Economic Law) before purchasing it in order to gage whether or not it would be worth my time, and all praised Improving International Investment Agreements (Routledge Research in International Economic Law):

This book presents the reflections of a group of researchers interested in assessing whether the law governing the promotion and protection of foreign investment reflects sound public policy. Whether it is the lack of "checks and balances" on investor rights or more broadly the lack of balance between public rights and private interests, the time is ripe for an in-depth discussions of current challenges facing the international investment law regime. Through a survey of the evolution in IIA treaty-making and an evaluation from different perspectives, the authors take stock of developments in international investment law and analyze potential solutions to some of the criticisms that plague IIAs. The book takes a multidisciplinary approach to the subject, with expert analysis from legal, political and economic scholars. The first part of the book traces the evolution of IIA treaty-making whilst the other three parts are organised around the concepts of efficiency, legitimacy and sustainability. Each contributor analyzes one or more issues related to substance, treaty negotiation, or dispute resolution, with the ultimate aim of improving IIA treaty-making in these respects. *Improving International Investment Agreements* will be of particular interest to students and academics in the fields of International Investment Law, International Trade Law, Business and Economics.

About the Author Armand de Mestral is a specialist in international trade and investment law and comparative federalism. Teaching at McGill Faculty of Law since 1976, Professor de Mestral is also an arbitrator and panelist for WTO, CUFTA, NAFTA, international commercial arbitration.
