From Ashgate : Industries and Markets in Central and Eastern Europe before purchasing it in order to gauge whether or not it would be worth my time, and all praised Industries and Markets in Central and Eastern Europe:

A combination of rigorous analysis and case material; this book is an essential guide to trade and industry developments in Central and Eastern Europe. Its scope encompasses globalization, the business strategies of MNCs, agriculture, services and the dynamics of innovation. It also considers the trading relationships of these countries with Russia as well as the influence of trade on the democratization of states formerly belonging to the USSR.

About the Author Bruno S. Sergi teaches International Economics at the University of Messina, Italy. He is a Visiting Fellow with the University of Greenwich Business School, London and a Fellow with the Contemporary Europe Research Centre at the University of Melbourne, Australia. His research interests include economic policy, transition economics and European economics. He has lectured in Eastern Europe and in the United States, has published several books and has research experience at various Central Banks and the International Monetary Fund. William T.
