the free spirits and independent thinkers out there who believe in personal accountability. It can be repetitive on occasions, but never boring. Reading it will leave you feeling empowered. 1 of 2 people found the following review helpful. Instant Motivation Book Review By Awesome one If you are familiar with Syd Harris's work on mind, thought, consciousness, then it is along the same lines, just from a business perspective. I love these types of books dealing with our "inside/outside" world. Once I immersed myself into all these types of books my life became easier and more enjoyable. Other books that are similar: "Do Nothing," "Somebody Should Have Told Us," "The Inside-Out Revolution," "Clarity," and any of the books by the late Syd Harris. If you want a view on how life works, really operates, pick up one of these. My favorites are Do Nothing and Somebody Should Have Told Us. 0 of 0 people found the following review helpful.
