Gary M. Wederspahn, William R. Sheridan : Intercultural Services (Managing Cultural Differences) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Intercultural Services (Managing Cultural Differences):

12 of 12 people found the following review helpful. Intercultural training field explained By Larry Caldwell I've been in the intercultural training field for 18 years and Mr. Wederspahn's book, "Intercultural Services," is the most thorough survey of the entire field I've ever read. Employees working in International Human Resources will treasure this book like they would the crown jewels, because it will save them thousands of hours of research. Mr. Wederspahn has

provided answers to all of the obvious questions faced by IHR employees who are trying to set up intercultural training programs, as well as a list of not-so-obvious questions. The book will also be of interest to students who wish to become intercultural trainers, as well as to entrepreneurs who are looking for new ways to present cross-cultural material in this rapidly expanding field.
