From University of Chicago Press : International Economic Cooperation (National Bureau of Economic Research Conference Report) before purchasing it in order to gage whether or not it would be worth my time, and all praised International Economic Cooperation (National Bureau of Economic Research Conference Report):

"A readable, balanced, and provocative view of the prospects for fruitful international economic cooperation. The papers are realistic: each discusses the difficulties involved in reaching cooperative solutions or procedures as well as the benefits of doing so. The discussion among the conference participants is lively, interesting, and insightful."--
William H. Branson, Princeton University
