Candida Brush : International Entrepreneurship (RLE International Business): The Effect of Firm Age on Motives for Internationalization (Routledge Library Editions: International Business) before purchasing it in order to gage whether or not it would be worth my time, and all praised International Entrepreneurship (RLE International Business): The Effect of Firm Age on Motives for Internationalization (Routledge Library Editions:

International Business):

This volume provides important benchmarks for the integration of entrepreneurship and international business. It extends scholarship beyond the firm as single unit of analysis, instead including the role of the founder/entrepreneur. Exploration of this domain discusses possibilities for theory revision or development as well as providing information about an under-researched segment of companies.
