Michele Lobl, Stan Schatt : Paint Your Career Green before purchasing it in order to gage whether or not it would be worth my time, and all praised Paint Your Career Green:

0 of 0 people found the following review helpful. 5 StarsBy JesI originally checked this book out at the library and loved it so much, I bought it. The delivery was fast and the book is super helpful. It also includes a bunch of website data for more information. Go Green!0 of 0 people found the following review helpful. A blueprint for successBy Dianne WIn a tight economy, many job seekers need to transition from their current field. One of the fastest growing markets is "green" jobs. Green jobs deal with "maintaining, preserving and restoring the environment." Transitioning

into a "green job" is not as hard as you may think. Stan Schatt and Michele Lobi, provide an excellent blue print for the transition. *Paint Your Career Green* is filled with tips and worksheets to help you prepare. They cover everything from researching green careers to developing a plan, through writing a resume that includes transferable skills and training opportunities. There is even a section on overcoming interview challenges. The final chapter provides an excellent list of resources for career changers. This is a very detailed book. While it is specifically targeting those job seekers wishing to transition into a "green career," the information is solid for anyone wishing to transition from any career to another. 0 of 0 people found the following review helpful. Job Seekers Look No Further By Gail Eisenberg I am a Computer Instructor who has helped job seekers in their job search. This book "Paint Your Career Green" by Michele Lobl Stan Schatt is an excellent resource for those individuals looking to change to a more stable career or for anyone looking for their next job. I highly recommend this book!

A roadmap for people who want to avoid starting over or taking a severe pay cut when they change careers to become part of a growing green industry. Readers will learn about green certificate programs that offer retraining in a short timeframe.

About the Author Stan Schatt has worked for several of the leading technology research companies including Forrester Research and ABI Research. He has focused on green technology and published reports that analyze the progress manufacturers have made in greening their operations. He is the author of 19 books and speaks frequently at major technology trade show events. He has served as a columnist for ComputerWorld and is frequently quoted on technology issues in major media such as the Wall Street Journal, the New York Times, Fortune, and Business Week. Michele Lobl is a WIA Supervisor at the Santa Clarita WorkSource Center, where she has been employed by the City of Santa Clarita for over 7 years. In her capacity, she counsels job seekers and facilitates job search workshops as well as supervises staff. Michele also teaches community extension classes at College of the Canyons and Ventura College.
