The book did a very good job of providing phrases for unique circumstances from shadowing a physician, explaining clinical trial experiences or research, describing why you want to go on to medicine, ways to express your goals and other phrases in response to specific areas of discussion. Although it's dangerous to plagiarize, there were some very good responses. The book did not take those responses in context as to how they would relate in a total personal statement or how they might relate in a total interview. The book also did not address at all specifically how to write the personal statement or how to act or interact in an interview, but rather provided these unique specific phrases. It did not provide the complete picture that I was looking for; however, many of the phrases were very strong and powerful if they would pertain to your particular circumstance. 0 of 0 people found the following review helpful. Two Stars By Jill F Not very helpful if you have half a brain, sorry. 0 of 0 people found the following review helpful. no glossary or index By abj Book is true to its promise regarding phrases and how to feel comfortable on interviews. It would have had better contents had it discussed more medical terminology since it used the operable words "medical school" ...abj

Perfect Phrases for Getting Accepted Whether you're applying to law school, business school, or medical school, it's essential to have the right phrases at your fingertips. Students need to be ready to stand out in essays, to impress during the interview, and to articulate the principles of their profession clearly and succinctly. The Perfect Phrases series gives these aspiring professionals the words they need for every step of the application process.
