By A T Moss I purchased this after reading the Prince2 manual, sitting an online course and then sitting an online sample Foundation exam. 50% improvement after reading this book. Well worth the investment for anybody taking Prince2 seriously.
1 of 1 people found the following review helpful. A must for Prince practitioners
By Patrick D. I studied PRINCE back in 1992 when on an NHS contract. Now I have to certify in PRINCE2 some 20 years later so this is a really good debunker allowing you to leave the manual on the shelf most of the time.
