Stefano Caselli : Private Equity and Venture Capital in Europe: Markets, Techniques, and Deals before purchasing it in order to gauge whether or not it would be worth my time, and all praised Private Equity and Venture Capital in Europe: Markets, Techniques, and Deals:

0 of 0 people found the following review helpful. they stay in place very well By Susan Raphael Well designed. Great product. customer satisfaction is amazing Have about five sets now. It does a good job. Nice. This is simply amazing for the price! Thanks for a good product.

The distinctive nature of the European pe/vc environment is on display in Stefano Caselli's presentation of its

complete conceptual framework, from the volatile (its financial side) to the stable (its legal organization). A Bocconi University professor, Caselli offers a European perspective on market fundamentals, the v.c. cycle, and valuation issues, supporting his observations with recent examples and case studies. Written for investors, his book achieves many "firsts," such as clarifying many aspects of EU and UK financial institutions. Complete with finding aids, keywords, exercises, and an extensive glossary, *Private Equity and Venture Capital in Europe* is written not just for Europeans, but for everybody who needs to know about this growing market. Only book that provides a comprehensive treatment of PE/VC in UK/Europe, ideal for European business schools teaching professionals or pre-professionals who will work in Europe Provides a complete analysis of the EU versus US in all areas of PE/VCContains cases and theory, providing both in one package Filled with pedagogical support features

"Comprehensive textbooks on Venture Capital and Private Equity are still scarce goods. This compendium provides an excellent up-to-date discussion of the most important aspects focusing on the European landscape. Students and young practitioners in the Venture Capital and Private Equity or affiliated industries will very much appreciate its content." -- Alexander Groh, EMLYON Business School

From the Back Cover Global financial markets might seem as if they increasingly resemble each other, but a lot of peculiar aspects qualify different markets with different levels of development. Private equity investors can take advantage of these variations. Structured to provide a taxonomy of the business, *Private Equity and Venture Capital in Europe, Second Edition* introduces private equity and venture capital markets while presenting new information about the core of private equity: secondary markets, private debt, PPP within private equity, crowdfunding, venture philanthropy, impact investing, and more. Every chapter has been updated, and new data, cases, examples, sections, and chapters illuminate elements unique to the European model. With the help of new pedagogical materials, this Second Edition provides marketable insights about valuation and deal-making not available elsewhere.

About the Author Stefano Caselli is Vice Rector for International Affairs and Full Professor of Banking and Finance at Department of Finance of Bocconi University in Milan. He conducts research at domestic and international levels and has written about private equity, SMEs and family business financing, corporate finance, corporate banking and banking strategy. He is a member of the scientific committees of CER (Centro Europa Ricerche in Rome), ECMI (European Capital Market Institute in Bruxelles), EVCA (European Private Equity and Venture Capital Association for PEREP Group in Bruxelles), ENTER (the research centre for entrepreneurship of Bocconi University) and CAREFIN (the research centre for financial innovation of Bocconi University). He serves as an independent director on several boards of corporations and financial institutions and has supported many companies and institutions as strategic consultant (among them, Borsa Italiana for Elite Project, ABI Associazione Bancaria Italiana, OCSE, Consob for the working group devoted to incentives for stock exchange).

Giulia Negri is Research Fellow of Accounting, Control, Corporate and Real Estate Finance Department at SDA Bocconi School of Management. Her field of interest concerns Financial Reporting, Performance Measurement and the whole world of Start-ups and Private Equity. She conducts research about private equity, start-ups and performance measurement systems. At the moment, she is supporting for the second consecutive year the activity "StartupDay" at Bocconi University that rewards the best Italian startups and that creates a marketplace among investors and startupper. In the past, she has worked with Assiteca (the largest Italian insurance broker), Assolombarda (the General Confederation of Lombardy), IBM and Prysmian and continuatively for over a year for the SDA Bocconi Audit Lab.
