Kenneth Trester : Sure Bet Investing: In Search of the Sure Thing before purchasing it in order to gage whether or not it would be worth my time, and all praised Sure Bet Investing: In Search of the Sure Thing:

1 of 1 people found the following review helpful. Sure Bet InvestingBy daniel osaroInformative,encouraging and reassuring in a world of lies and deceitGive it a try and no regrets.This will take some blinders off of option trading.This is for the brave,patient and disciplined1 of 1 people found the following review helpful. great insightBy philip stevensonSell makes money right away and, with odds on my side, I win most of the time. Great book! Together with due diligence, I can win.

Yes! You can win over 90% of the time! There are close-to-sure bet investments! However, they are hard to find and must be based on math and science, not on intuition or an analyst's prediction. Most investments are NOT sure bets. Real estate, bonds, stocks, gold, silver and even cash are not sure bets and can lose you a lot of money. This easy-to-read and understand book was written by Ken Trester, a best-selling author and successful trader for over 35 years. The book covers the SECRET path to sure bet investments, doing the work for you with unique tools. Ken Trester has written four books on investing and his best-selling book, *The Complete Option Player* is now in its 5th edition.

About the Author Ken Trester has been trading options since the first exchanges opened in 1973. He's probably the nation's best-known options advisor, and he also actively trades his own account. In addition to writing *The Complete Option Report*, he has written four books on options. *The Complete Option Player*, now in its fifth edition, is among the best-selling options books ever. As a computer science professor at Golden West College and Fresno State University, he also taught a popular course on options trading. In addition, he teaches a limited number of individuals through intensive options seminars. He is also widely quoted in publications like *Technical Analysis of Stocks Commodities* and *Barron's*. He has an MBA and has worked as a stock broker and an investment manager. He developed an economical software program for personal computers, *OPTION MASTER*reg., which allows small investors to easily determine an option's true theoretical value.
