0 of 0 people found the following review helpful. Sensible advice. By Jpabshire The book is very informative giving plenty of usable advice. Investing is considered to be gambling by many people and the book explains how that can be so but also provides methods to avoid being a gambler and become a true investor. 0 of 0 people found the following review helpful. Misleading title By Rebaacute;k Attila Be aware of the title, which is totally misleading. Just naming something value investing won't turn into it. You won't be a value investor by following the book's recommendations. Even though from a behavioural perspective the author is close to the principle of value investing, the book falls short on other aspects, and even contradicts the value investing principle. 0 of 0 people found the following review helpful. This book can be safely labelled as a brief Introduction ... By Customer This book can be safely labelled as a brief Introduction to value investing, there are some unique concepts relating to behavioral investing but cannot be used as a stand alone book.
