David Campbell, Marianne Groenbaek : Taking Positions in the Organization (The Systemic Thinking and Practice Series - Work with Organizations) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Taking Positions in the Organization (The Systemic Thinking and Practice Series - Work with

Organizations):

This volume provides a positive and productive model for helping people to move out of static positions or difficult relationships in the workplace. Informed by systemic thinking and social constructionism, the authors discuss how it is possible to create realities through dialogue and to enable greater opportunities for the employee, manager and consultant alike. *Taking Positions in the Organization* uses a model of semantic polarities to create simple solutions to complex problems in a format which will inform and enthuse all its readers.
