It includes simple principles to living a fulfilled, enriched, and successful life. With any book like this it must be used as a reference, as a reminder for when times get tough, but there is no way you can fail if you adhere to the principles written here. Remember, repetition is the mother of all skills, no matter how great the book is (: This is surely one of them!0 of 0 people found the following review helpful. became eager to learn much more about this great man of the human history. And undoubtedly I'm satisfied to know how deeper relation Sir Templeton held with God. This book just confirmed what I really believed that God could help us do a lot in our lives and we should not fear. A book that I recommend to the youth so that they could plant the seeds of success in their future business lives. 3 of 3 people found the following review helpful. A compact book of gems! Through Templeton's twenty-one step ...By LOO MENG GEEA compact book of gems! Through Templeton's twenty-one step program, one can learn how a person who lives by God's principles is the same person who will succeed in life, making lasting friendships and becoming wealthy.

Sir John Templeton (1912–2008), the Wall Street legend who has been described as “arguably the greatest global stock picker of the twentieth century,” clearly knew what it took to be successful. The most important thing, he observed, was to have strong convictions that guided your life—this was the common denominator he saw in all successful people and enterprises. Fortunately for us, he was eager to share his own blueprint for personal success and happiness with the rest of the world. In *The Templeton Plan*, he laid out the twenty-one guiding principles by which he governed both his professional and personal life.

**About the Author**As a pioneer in both financial investments and philanthropy, Sir John Templeton spent a lifetime encouraging open-mindedness. Templeton started his Wall Street career in 1937 and went on to create some of the world's largest and most successful international investment funds, eventually earning the label of “arguably the greatest global stock picker of the century” from *Money* magazine. In 1972, he established the world's largest annual award given to an individual: the \$1,000,000 Templeton Prize. The Prize is intended to recognize exemplary achievement in work related to life's spiritual dimension. Templeton also contributed a sizable amount of his fortune to the John Templeton Foundation, which he established in 1987. Templeton passed away in 2008, but the Foundation that bears his name continues to award millions of dollars in annual grants in pursuit of its mission to serve as a philanthropic catalyst for research on what scientists and philosophers call the “big questions.”
