Peter Sander, Scott Bobo : The 100 Best Aggressive Stocks You Can Buy 2012 before purchasing it in order to gage whether or not it would be worth my time, and all praised The 100 Best Aggressive Stocks You Can Buy 2012:

2 of 2 people found the following review helpful. Not sure about any of these books!By Spring AheadWho is to say that the writers of these books know what they are talking about. Anybody can speculate about a stock but there are very few guarantees in the world of stock investing.2 of 2 people found the following review helpful. You Can Find A Better TitleBy ItsDaveI recently went through this book within a day, and took down the symbols and looked at each individual stock on charts. Granted I am a technician, and usually buy the best fundamental stocks technically.... it was

almost depressing to look at some of these stocks! Granted we have had close to a 10% in the indexes as of late... but some of these company stocks are absolutely horrendous. One thing I will never do is buy a stock making a new low, or is in a downtrend....some of these downright just looked absolutely horrible! As they say, never catch a falling knife, and that is what you would be doing buying many of these!!! I highly recommend learning the CAN SLIM method, THERE you will find all you need when it comes to both technicals AND fundamentals!0 of 0 people found the following review helpful. Does not disappoint.By Jim BurnsPrecise and to the point with the research to back it up. Does not disappoint.

Now that the Dow-Jones Average has climbed above 12,000, you probably feel a bit better about taking risks. But where should you put your money? Just how safe is aggressive investment, anyway?If you want to rebuild your portfolio after the losses of the past few years, here's your essential guide to investing in high-performance stocks. The authors list detailed information on potentially top-yielding stocks, along with suggestions on how to balance your portfolio to minimize exposure and ensure the best possible returns.Here you'll find information on how to define an aggressive stock, what to watch for in financials, managing risk with a tiered portfolio, how to play tailwinds, and the most important parts of your buying decisions.Today, the market is surging. Investors are watching attentively, ready to jump. Now you can dive in on the next big thing. This book will guide you safely to it.
