This is a book for a "buy and hold" type of investor and provides a good place to begin researching some very well known companies. The information provided is useful and it's a good source of info. to keep up with companies I already own. However since it is a book intended for long term investing, there are relatively few changes in the 100 stocks included in the book in each new calendar year's updated

version. I bought the 2012 and earlier editions and the 2014 edition was not too different. 3 of 3 people found the following review helpful. Best Stocks in 2014 By Mtee Its a great reference to start, or add to, a portfolio. I mostly use it to get a feel for those stocks which I'm not already familiar with and use the fundamental information (provided) to get an initial "feel" for the stock. In addition, I find the "Reasons to Buy and Reasons to be Cautious" a great way to get initially introduced to a potential new buy. 0 of 0 people found the following review helpful. Four Stars By Arthur Flegenheimer good write-ups for some excellent businesses but some excellent businesses were left out
