By Eugene Suh "The 21 Success Secrets of Self-made Millionaires" is no secret. The concepts (or "secrets"), such as "go the extra mile" and "develop a reputation for speed and dependability" are common sense. What I do like about this short book is that it is short (less than 100 pages) and the chapters are about 1-2 pages each (so they're really not chapters). However, the fact that the "chapters" are indeed short and easy to read will make this book more attractive to people who are uneducated or eager to quickly read this short book and (hopefully) apply their new-found knowledge to their work/jobs and personal lives (to make themselves and this world a better place to live in). Do I recommend this book? Yes, if you're a fan of no-nonsense, get to the point knowledge sharing (like me). No, if you're interested in peeling back more layers and learning more in-depth knowledge of the knowledge and skills required to learn the important aspects of finance and money.

By Customer Very quick, easy, and down to the point. It's a book that you'll have to put down and pick back up later, in order to follow. I read this one and a couple others, and I feel very confident.

By Bena Brian Tracy never ceases to amaze me. His business and success insights will take you to a level in life you never thought you would reach. Self made millionaires gives you the top secrets of success and to be honest they are very easily to implement into your life. Great, short and to the point.

IN HIS BOOK The 100 Absolutely Unbreakable Laws of Business Success, Brian Tracy drew on his thirty years of experience and knowledge to present a set of principles or "universal laws" that lie behind the success of business people everywhere, in every kind of enterprise, large and small. This latest volume, The 21 Success Secrets of Self-Made Millionaires, is made up of entirely new material that shows how anyone, no matter where they are in life at this moment, can become a millionaire. The advice in this book is based on Brian Tracy's twenty-five years of research, teaching, and personal experience on the subject of self-made millionaires. Tracy himself used these ideas to rise from humble beginnings to become a millionaire. And Tracy has discovered that all successful people practice these 21 success secrets, whether they're consciously aware of it or not. In The 21 Success Secrets of Self-Made Millionaires Tracy not only identifies and defines each success secret, but also reveals its source and foundation, illustrates how it functions in the world, and shows how to apply it in life and work through specific steps and practical exercises that everyone can use. Easy to read, easy to understand, and easy to apply, The 21 Success Secrets of Self-Made Millionaires shows how anyone can cultivate the habits and behaviors that will enable them to achieve not just financial independence, but success in any area of life. Because, as Tracy writes, "The most important part of achieving great success is not the money. It is the kind of person you have to become to earn that money and hold onto it."

About the Author  
BRIAN TRACY is a professional speaker, trainer, and consultant and is the chairman of Brian Tracy International, a training and consulting company based in Solana Beach, California. He is also a self-made millionaire. Brian learned his lessons the hard way. He left high school without graduating and worked as a laborer for several years. He washed dishes, stacked lumber, dug wells, worked in factories, and stacked hay bales on farms and ranches. In his mid-20s, he became a salesman and began climbing up through the business world. Year by year, studying and applying every idea, method, and technique he could find, he worked his way up to become chief operating officer of a \$265-million development company. Brian has one single focus. He believes that the average (or above-average) person has enormous untapped potential. He believes that you can move ahead far faster toward your goals if you learn and practice the key methods, techniques, and strategies used by other successful

people who have gone before you.
