At first, I wasn't sure I should buy into the hype of this book but I'm really glad I did. I attended a seminar that highlighted the points of this book and I was excited to read it. I have been reading it and have been applying some of the "advice" to my daily life. Now, I'm not for buying or reading books with nothing but common sense. This book is nothing like that. Yes, it has some common sense factors, but it also has a different way to view your life and the things that are outside of your control. It allows you to use different techniques to have a better outcome whether you're a supervisor, employee, or anything else. This book is for everyone. If you are wanting to be a better you or how to become a leader/better leader, this book is great.
