Nick Fox : The Art of the Flirty Cover Letter before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Art of the Flirty Cover Letter:

0 of 0 people found the following review helpful. Highly recommended! By Maggie McIntyre I thought this book was GREAT for a number of reasons: (1) It's much more than just instructions on how to write a cover letter. This book teaches a whole new mindset and approach to getting the job you want. By comparing this process to the dating world....it highlights the things you need to do to catch an employer's attention and why they work. (2) It lays out clear instructions and techniques for how to write your cover letter...while still leaving so much room to add your individuality to it. I get panicked when I don't know how to start...and I loved having a structure to go off of without it

just being a boring copy. No other template I've tried allowed or instructed for that kind of variation and flare.(3) It's funny and actually enjoyable to read!!0 of 0 people found the following review helpful. I hate writing cover lettersBy Jessica Lyn HoffmanI want to make one thing perfectly clear: I hate writing cover letters.This book does an awesome job of taking something that at first is daunting and tedious and turns it into something manageable and even easy. It walks you through the process step by step from beginning to end in a conversational (even humorous) manner. It emphasizes not just the "how" to write a cover letter, but the "why," which provides a fresh take on a lot of the career seeking advice that you'll find out there, and allows you to incorporate your own style without getting bogged down by a traditional professional formats.Overall, I found it to be an incredibly helpful read and a breath of fresh air!0 of 0 people found the following review helpful. Perfect Job Seeking ToolBy Glenn E. FoxThe perfect book for someone trying to enter the workforce or anyone trying to change careers.The technics presented allow employment screeners the opportunity to connect with the applicant at a much deeper level than that of the standard dry cover letters that they must constantly endure.Revealing ones unique personality at this stage in the application process helps you to stand out and puts you in a better position for the coveted interview.The book was an easy read and provided clear examples.The authors humor throughout the book allows the reader to actually have fun with the cover letter writing process.

Have you ever found yourself sitting at your computer with nothing on the screen, waiting for inspiration to strike before writing your cover letter? If you know that fear of starting and need to find a solution, The Art of the Flirty Cover Letter can help.Don't waste another day using yet another terrible cover letter template you find online. The tactics in this book are all easy to implement techniques based on strategies tested in the field by real job seekers and designed to help make your cover letter stand out and make your application rise to the top of the pile.
