**Bouck White : The Book of Daniel Drew** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Book of Daniel Drew:

1 of 1 people found the following review helpful. HIGHLY RECOMENDEDBy VIVEK SHIVDASANIWritten more than a century ago this book is compulsory reading for anyone aspiring to make a fortune in the financial markets. Dan Drew was one of the famous robber barons of America during the age of railroads. His speciality was shorting and he had no scruples. He was an out and out rascal and thief. Basically the stockmarket is a place where fools are separated

from their money and this book tells of all the tricks Daniel Drew and his friends used to rob the unwary public of their money. The language of the book is quaint and belongs to an era where there were no automobiles, electricity or phones. Men travelled on horseback and stagecoach. Even safety matches were a novelty in those days. It is a literary gem. 0 of 0 people found the following review helpful. A most thorough account of one of America's premier scallywags ...By Leo G. FurlaA most thorough account of one of America's premier scallywags of American history. Colorful that he is and religious as well, he cant escape his place among the infamous "Robber Barons." Truly enjoyable book. 0 of 0 people found the following review helpful. Book of Daniel DrewBy LibraLadyThe item was received and shared with an "ancestor" who enjoyed it very much.

"He Who Sells What Isn't His'n Must Buy it Back or Go to Pris'n." --"Uncle Dan'l" Drew Long out of print and virtually unavailable for years, THE BOOK OF DANIEL DREW is the irresistible story of a country boy who grew up to become Wall Street's first great speculator. Told for the most part in his own salty language - of his early life as a cattle drover, as a profiteer of "watered" cattle (a scheme he later used in the stock deal in the famed Erie Railroad operation), of his building of a fortune on Wall Street and of his epic struggles with Commodore Vanderbilt including his unholy alliances with Gould, Fisk and Boss Tweed. Originally published in 1910, THE BOOK OF DANIEL DREW is a true classic of the stock market. It's a fascinating look at an era in American financial history whose ethos was "anything goes" and anything did!
