I am a regular member of whowhatwear website that showcases the fashion trends and DIYs.I love the website so much so when they recommended the book, i instantly pre ordered. I was kinda looking forward to knowing the writer since i have been surfing their website since quite some time. But, the content is really superficial and very predictable. I mean, we all know the dress code and how to behave at work. Dont buy the book unless this is your first time to working in real world!!!!6 of 6 people found the following review helpful. I can't say how valuable this book is for me. I went to school for fashion design and I'm about to move to LA to find my first design job and I feel like this book was written for me. I learned so much information from how to best use LinkedIn to how to present yourself at your yearly review. This will be like a bible to me for the next few years for sure.
