From Routledge : The Caspian: Politics, Energy and Security (Central Asia Research Forum) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Caspian: Politics, Energy and Security (Central Asia Research Forum):

The Caspian redefines a Caspian debate long characterized by one-sided and politically motivated analyses and, at

times, fantastic reporting. Bringing together a range of influential voices from academia, the media, the oil industry, civil service, the military and diplomatic corps, this book rewrites the region's recent history.

'This is a stimulating and informative book about an exciting region full of opportunities for the bold and the clever. It is a book best dipped into but should not be missed by anyone with an interest in the region.' - The Journal of Energy Literature
'This impeccably designed volume is very timely, as a sharp spike in oil prices brings international attention yet again to the potential sources of supply in the Caspian areas.' - Journal of Peace Research
About the Author
Shirin Akiner is Lecturer in Central Asian Studies at the School of Oriental and African Studies, University of London, UK.
