Book of the year in LDBBy Najeab Abdullah Al SharafiI read the 2nd edition of the Handbook of Leadership Development and it was the best book that I ever read in Leadership Development. I have been wondering if there will be a better book to be published on LD and CCL did it again. This book is packed with ideas and CCL has had no reservation on keeping this knowledge to them only. You

will get that Aha almost every page you read. Chapters 1 on Leader Development Systems, 2 on Learning from Experience alone are worth buying the book. There is plenty of solid ideas for leader development in the remaining chapters such as Feedback Intensive Programs, Leadership Coaching, Leader Development and Social Identity. If you are involved with Leader Development, a line manager with the responsibility of developing your own staff, an HR Development guy or even if you are a person that develops and delivers behavioural training programs this book will have plenty of practical ideas for you. 0 of 0 people found the following review helpful. GRIFFIN, vice president, organizational learning and chief teaching officer, U.S. Cellular "Only from the Center for Creative Leadership could we expect to see such a rich, authoritative, and actionable set of the latest resources for developing leaders. All those who have responsibility for developing leaders (senior executives, leader development professionals, and leaders themselves), as well as those who study leadership, need to read this book." —DOUGLAS T. "TIM" HALL, founding director, Executive Development Roundtable, Boston University "The changes in the third edition of The Handbook of Leadership Development make a good book even better. The authors provide a broad perspective on the most relevant topics for academics and practitioners. The emphasis on development of collective leadership capacity as well as development of individual leaders is consistent with the growing recognition that strategic leadership, shared leadership, and flexible change leadership are essential for sustained organizational effectiveness in a dynamic global economy. The book is a valuable source of knowledge and practical advice for anyone who is responsible for providing or managing leadership development." —GARY YUKL, professor of management, University at Albany-SUNY "We consider leadership to be the single most important factor influencing the performance of our organization. This book is brilliant in defining what we need to do and what capabilities we need to assist our leaders to grow and develop." —MORTEN RAABE, vice president of Organisation Development, WW ASA, Oslo, Norway
