Passionate about compassion and conspiracy ...By RichardPhil Johnson is passionate about compassion and conspiracy, a conspiracy to change the world for the better. He deftly combines a mass of global statistics on populations, poverty, disease, and more with his own deeply-felt vision for a

new world, drawing on examples from his own extensive experience in the USA, Canada, Africa, and beyond. He lays out a road map, a way that we can join his compassionate conspiracy, a life path leading toward a better world for all. This is a must read for all who have concerns for the future in this increasingly complex world. 1 of 1 people found the following review helpful. Dr. Phil Johnson draws from his own personal experiences and gave me a kick in the pants to start thinking on a more global scale - about how I can help the global community.
