Most of important things he says could probably be said in 50 pages, the rest is mostly filler in order to make a book out of it. If you are new to day trading, this book will help you immensely.1 of 1 people found the following review helpful. Nice useful bookBy Kindle CustomerNothing groundbreaking here but it is always useful to re-focus on sound advice and tips. The book is well organized and written in plain language easy to read and use.0 of 1 people found the following review helpful. Excellent Seller! Arrived quickly and as advertised!By Tape ReaderLove the book! Long-time trader. Some good techniques are included. If you're like me, if you only pick

up one idea, it is worth the small price of a book.
