By Reasonable Reviewer
This book is all things to all men on Management and Leadership from John Maxwell. It is a collection of previously written books. So, there is nothing new here, but it is worth the price if you are

going to read more than three of Maxwell's books.1 of 1 people found the following review helpful. Great learning tool!By CustomerI am a fan of anything I have read from John C. Maxwell, but the 101 series has allowed me to formulate structure around development for my leadership team. We have taken one volume per month, and done a review / book club meeting to discuss lessons learned and take-away nuggets with each other. Ending the series with mentorship 101 enables leaders to start their teams down a mentorship program launch at completion of the series too, which is a great transition into practical application.0 of 0 people found the following review helpful.
